

### Thermocouples (Pencil Style)

Autoclave Engineers provides pencil style thermocouples for pressures to 15,000 psi (1034 bar). Available in type J or K elements our lower pressure pencil style is used with our SpeedBite compression sleeve components.

### Thermocouples (Pencil Style) : Accessories

[Pencil Style Thermocouples](#)

### FEATURES

- Pencil style - Temperature at the tip to 1200°F (649°C), pressures to 15,000 psi (1034 bar).
- Type J and K elements available.
- Special lengths available.
- Standard material is 316 SS.
- Rapid response.
- Grounded junctions.

### BENEFITS

Thermocouples provide reliable temperature measurement within a fluid system. The design permits installation of the element in direct contact with the fluid stream, thereby providing reliable temperature measurement.

measurement.
