

HIGH PRESSURE NIPPLES

Since 1945 Autoclave Engineers has designed and built premium quality valves, fittings and tubing. Autoclave's high-pressure nipples are capable of operating to 150,000 psi (10342 bar) and range in size from 1/4" to 1" tube size. Standard nipples are available in 316 and 304 stainless steel tubing.

High Pressure Nipples: ▶ High Pressure • Fittings and Tubing
HIGH PRESSURE to 150,000 psi (10342 bar)
Coned and Threaded Nipples

FEATURES

- Pre-machined nipples available from stock.
- Coned-and-threaded connection
- Tubing sizes are 1/4", 5/16", 3/8", 9/16", and 1".
- Nipples are manufactured from cold worked stainless steel.
- Operating temperatures from -423°F (-252°C) to 1200°F (649°C).
- Stock nipple lengths from 30" (76.2 mm) to 12.0" (304.8 mm).
- Special material and special length nipples available.
- Pre-machined nipples available from stock.

BENEFITS

Autoclave's high-pressure nipples are used as fluid handling components for the chemical/petrochemical, research, and oil and gas industries. These nipples are available in various sizes and pressure ratings for optimal performance. The high-pressure series uses Autoclave's high-pressure
